

Testimonials

Thank you for a most inspirational morning. The response by my staff and children was amazing...they readily commented and said to me that they thought the lecture was informative, exciting and thoroughly engaging. The children and staff also appreciated the opportunity to ask questions and discuss your adventures further.

Some children have even said they want to be mountaineers and adventurers... a truly positive impact upon young minds!

I will happily recommend your lecture to any leader of a school community as I believe the impact was such that it will have a long lasting effect on many of our young people.

I just wanted to thank you and your staff for yesterday. It was a great session and the girls really enjoyed it. I think they will return with their friends.

Simon was great and he really guided us around your centre. One of the girls, Hannah, even made it to the top f the wall despite being convinced she wouldn't get above head height.
